

327 Airborne Infantry Assn.

Above the Rest/No Slack one more time. I hope all is well with you and yours and that the Holidays and the New Year are good to all. Not much in the way of information to pass along but I do want to thank all the great guys that communicated with me since November 1988 when this column started. I wonder if anyone would respond but I made my mind up to give it a try.

The first two troopers who did were DON JOHNSON (1/327) and JOHN MOORE III. Hundreds more followed and a critical mass of 327 guys were compiled into a roster, etc. etc. I gauge the usefulness of this column by the number of contacts it initiated. Judging by that standard, its current usefulness is low. Perhaps one of you want to volunteer to write this column; a fresh voice could reinvigorate everyone. I don't know how many more 327 Nam Vets are still out there who have not gotten themselves hooked up but, when/if they do it will be easier than ever before with the number of 327/101st organizations and reunions which now are held regularly along with websites. That is all good and, on that note, I will end my tour of STATIC LINE duty with BEST WISHES TO

ALL.
